The National Geographic Bee is a local, state, and national academic contest for students in grades four through eight. The competition culminates in a finals face-off, broadcast live on National Geographic Television. This is the ultimate guide for gearing up for the events. Like the Bee, the guide has expanded its range of material to include social studies, earth and space science, the environment, and culture. Of course, geography is at its core, and the guide features the latest country and geographic statistics; selected new question rounds; updated resources; new tips from past winners; and a brand new country index full of vital stats. It's the perfect resource to help millions of school kids prepare to compete in the Bee. It's also a fun and helpful resource for trivia buffs, challenge seekers, and college-bound test-takers.

*Weird But True 9* National Geographic Books

Boys can be anything they want to be! In this sequel to the New York Times bestseller *Stories for Boys Who Dare to Be Different*, Ben Brooks introduces seventy-six more boys and men who will inspire young readers to live boldly and true to themselves. What do environmental activist Xiuhtezcatl Martinez, philosopher Socrates, and singer Ed Sheeran all have in common? Each of them defied expectations -- going against the grain and pursuing their dreams despite a seemingly impossible barrage of obstacles and difficulties. Their stories are incredible, as are those of tap dancer Evan Ruggiero, Pokémon creator Satoshi Tajiri, the brave Chernobyl Divers, and the other inspirational boys who fill the pages of this extraordinary book. Together, their stories offer young boys the welcome alternative message that masculinity can mean many things -- that it's okay to be sensitive, to be bold, and to follow their hearts.
