An unexpected immigration wave of Jews from the former Soviet Union mostly in the 1990s has stabilized and enlarged Jewish life in Germany. Jewish kindergartens and schools were opened, and Jewish museums, theaters, and festivals are attracting a wide audience. No doubt: Jews will continue to live in Germany. At the same time, Jewish life has undergone an impressive transformation in the second half of the 20th century– from rejection to acceptance, but not without disillusionments and heated debates. And while the ‘new Jews of Germany,’ 90 percent of them of Eastern European background, are already considered an important factor of the contemporary Jewish diaspora, they still grapple with the shadow of the Holocaust, with internal cultural clashes and with difficulties in shaping a new collective identity. What does it mean to live a Jewish life in present-day Germany? How are Jewish thoughts, feelings, and practices reflected in contemporary arts, literature, and movies? What will remain of the former German Jewish cultural heritage? Who are the new Jewish elites, and how successful is the fight against anti-Semitism? This volume offers some answers.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Word and Music Studies Defining the Field BoD – Books on Demand

School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

The Lamentations of Zeno Rodopi

Should laws about sex and pornography be based on social conventions about what is disgusting?

Should felons be required to display bumper stickers or wear T-shirts that announce their crimes?

This powerful and elegantly written book, by one of America's most influential philosophers, presents a critique of the role that shame and disgust play in our individual and social lives and, in particular, in the law. Martha Nussbaum argues that we should be wary of these emotions because

they are associated in troubling ways with a desire to hide from our humanity, embodying an unrealistic and sometimes pathological wish to be invulnerable. Nussbaum argues that the thought-content of disgust embodies "magical ideas of contamination, and impossible aspirations to purity that are just not in line with human life as we know it." She argues that disgust should never be the basis for criminalizing an act, or play either the aggravating or the mitigating role in criminal law it currently does. She writes that we should be similarly suspicious of what she calls "primitive shame," a shame "at the very fact of human imperfection," and she is harshly critical of the role that such shame plays in certain punishments. Drawing on an extraordinarily rich variety of philosophical, psychological, and historical references--from Aristotle and Freud to Nazi ideas about purity--and on legal examples as diverse as the trials of Oscar Wilde and the Martha Stewart insider trading case, this is a major work of legal and moral philosophy.

Big Rock - Kunsthaus Bregenz

Pharao Echnaton befiehlt Neues, Großartiges! Baut für Kemet und den Sonnengott Aton die neue glitzernde Hauptstadt Achet-Aton. Mit dem Wunsch, die alten Götter hinwegzufegen, baut er der Sonne eine Stadt, stürzt das Land in einen enthusiastischen Freudentaumel. Doch aus gepredigter Liebe wird schnell grausame Besessenheit. Nofretete, seine Große Königliche Gemahlin, schenkt ihm statt dem ehrsehnten Thronfolger nur Töchter. Und so läßt sich Echnaton zu einer unheilvollen Schandtät hinreißen. Und dann tritt ein neunjähriger Junge seine Nachfolge an! Tut-Ench-Amun, von Eje und Haremhab unterstützt, ist jetzt Herrscher über das Schwarze Land! Mit Anchesenamun, Nofretetes Tochter, will er den alten Glauben zurückbringen, Aton soll von nun an vergessen sein. Doch frei und ungezwungen in Achet-Aton aufgewachsen, fühlt sich der junge König in den Mauern des gewaltigen Palastes Pen Tjehen Aton eingengt, von Eje, dem übermächtigen Tjai chu her wenemi Nesu, geknechtet, folgt er schließlich seinem unbändigen Freiheitsdrang, entgeht mit Glück einem feigen Anschlag und beschließt sein Leben selbst in die Hand zu nehmen. Nach Jahren fern der Heimat ruft ihn seine Treue zurück ins Große Haus. Pharao Eje ist tot und Tut-Ench-Amun will mit aller Macht verhindern, daß General Haremhab den Thron besteigt. Mutig fordert Tut-Ench-Amun zurück, was er einst freiwillig aufgab. Allem voran seine Große Königliche Gemahlin Anchesenamun. Doch sie, der Welt entrückt, lebt mit gebrochenem Herz im Tempel der Isis. Um seine Frau zurückzugewinnen, muß Tut-Ench-Amun der furchterregenden, mächtigen Hohepriesterin der Isis, Sahu-Re entgegentreten. Es glückt! Er kann Anchesenamuns Herz erobern und mit ihr macht Ka Nacht Tut Mesut das Schwarze Land zum mächtigsten Imperium der Welt. Aber aufgewachsen in der Zeit des Umbruchs, in der für die alten Götter kein Platz war, hadert Tut-Ench-Amun mit dem alten Glauben, zweifelt sein Leben lang an der Allmacht Amuns, ebenso wie an seiner eigenen Göttlichkeit. Alles stellt er in Frage, doch ein uralter Papyrus aus der Zeit der ersten Pharaonen zeigt ihm endlich einen Ausweg. Wird dieses Djema ihm zur Unsterblichkeit verhelfen?

The Letters of Claudio Monteverdi Walter de Gruyter GmbH & Co KG

The nineteen interdisciplinary essays assembled in WORD AND MUSIC STUDIES I were first presented in 1997 at the founding conference of the International Association for Word and Music Studies (WMA) in Graz, Austria. Diverse in subject matter, theoretical orientation, critical approach,

and interpretive strategy, they share a keen scholarly interest in contemporary word-music reflection. Registering the impact of cultural studies on word-music relations, as manifested in the 'new musicology' and other 'historicist' approaches, the volume aims to assess the entire field of word and music studies, to define its subject, objectives, and methodology and to describe the field's state of the art. Within the broader context of generic, structural, performative, and ideological considerations concerning the manifold interrelations between literature and music, contributors explore wide-ranging topics, such as the vexing question of terminology (e.g. 'word and music', 'melopoetics', 'interart', 'intermedial', 'transmedial'); inquiry into the meaning, narrative potential, and verbalization of music; analysis of texted music (the Lied and opera) and instrumental music; and discussion of individual issues (e.g. 'ekphrasis', 'musicalization of fiction', 'word music', and 'verbal music') and interart loanwords (e.g. 'narrativity', 'counterpoint', and 'leitmotif').

Here, leading neuroscientist Nancy Andreasen offers a state-of-the-art look at what we know about the human brain and the human genome -- and shows how these two vast branches of knowledge are coming together in a boldly ambitious effort to conquer mental illness. Andreasen gives us an engaging and readable description of how it all works -- from billions of neurons, to the tiny thalamus, to the moral monitor in our prefrontal cortex. She shows the progress made in mapping the human genome, whose 30,000 to 40,000 genes are almost all active in the brain. Four major disorders are covered -- schizophrenia, manic depression, anxiety disorders, and dementia -- revealing what causes them and how they affect the mind and brain. Finally, the book shows how the powerful tools of genetics and neuroscience will be combined during the next decades to build healthier brains. By revealing how combining genome mapping with brain mapping can unlock the mysteries of mental illness, Andreasen offers a remarkably fresh perspective on these devastating diseases.

Among the least-chronicled aspects of post-World War II European intellectual and cultural history is the story of the Russian intelligentsia after Stalin. Vladislav Zubok turns a compelling subject into a portrait as intimate as it is provocative. Zhivago's children, the spiritual heirs of Boris Pasternak's noble doctor, were the last of their kind - an intellectual and artistic community committed to a civic, cultural, and moral mission.

Liquid Reign is a work of speculative fiction, imagineering a fairly liveable future in 2051, neither dys- nor utopian. Melting the boundaries between science and fiction into a novel format, each chapter provides links to the sources of inspiration influencing it - ranging from Jean Jacques Rousseau's social contract of 1762 to blockchain startups from 2018. "A vertiginous rollercoaster of ideas and a unique take on the future of (un)governance, delivered with irrepressible, unruly energy." - Jamie King of the Pirates, Host "Steal this Show" "Tim Reutemann has become one of my favorite big brain boys over the past few months. In his book Liquid Reign he explores the future of democracy and civics in a way I have never seen done before..." - TheBürgerkrieg, Edgy Youtuber "Liquid Reign is a SciFi Novel about technology and our future and AI an all sorts of awesome shit and how it's gonna affect our world" - Jarred "PiG" Krensel, Ex Pro-Starcraft Player and

Fans of David Almond's Skellig and Patrick Ness's A Monster Calls will embrace this deeply affecting middle grade novel in which a girl suffering from terrible grief befriends a mysterious wild boy. When I saw him that first time I screamed—a small and silent scream, all inside, in my gut. Eleven-year-old Kaia, who has felt isolated since her older brother committed suicide more than a year before, befriends a wild boy who mysteriously appears at her London school. Though the boy is mute and can only communicate with a flash of his gray eyes, he might be the friend Kaia needs to bring her through her grief. Here's a fascinating story, which offers a fresh and completely original portrayal of loss and renewal. "Readers who love stories of overcoming personal struggles and emotional strife will eat this up." —Booklist "Fans of realistic fiction... will surely devour Avery's latest." —School Library Journal "[Kaia's] confessional narration and self-aware observations yield a believable and haunting portrait of grief." —Publishers Weekly

Zitty MIRA Taschenbuch

The pervasive and unrestrained use of obscenity has long been acknowledged as a major feature of fifth-century Attic Comedy; no other Western art form relies so heavily on the sexual and scatological dimensions of language. This acclaimed book, now in a new edition, offers both a comprehensive discussion of the dynamics of Greek obscenity and a detailed commentary on the terminology itself. After contrasting the peculiar characteristics of the Greek notion of obscenity to modern-day ideas, Henderson discusses obscenity's role in the development of Attic Comedy, its historical origins, varieties, and dramatic function. His analysis of obscene terminology sheds new light on Greek culture, and his discussion of Greek homosexuality offers a refreshing corrective to the idealized Platonic view. He also looks in detail at the part obscenity plays in each of Aristophanes' eleven surviving plays. The latter part of the book identifies all the obscene

terminology found in the extant examples of Attic Comedy, both complete plays and fragments. Although these terminological entries are arranged in numbered paragraphs resembling a glossary, they can also be read as independent essays on the various aspects of comic obscenity. Terms are explained as they occur in each individual context and in relation to typologically similar terminology. With newly corrected and updated philological material, this second edition of *Maculate Muse* will serve as an invaluable reference work for the study of Greek drama.

A literary fiction about climate disaster and a scientist imploding on a journey to the Antarctic Zeno Hintermeier is a scientist working as a travel guide on an Antarctic cruise ship, encouraging the wealthy to marvel at the least explored continent and to open their eyes to its rapid degradation. It is a troubling turn in the life of an idealistic glaciologist. Now in his early sixties, Zeno bewails the loss of his beloved glaciers, the disintegration of his marriage, and the foundering of his increasingly irrelevant career. Troubled in conscience and goaded by the smug complacency of the passengers in his charge, he starts to plan a desperate gesture that will send a wake-up call to an overheating world. *The Lamentations of Zeno* is an extraordinary evocation of the fragile and majestic wonders to be found at a far corner of the globe, written by a novelist who is a renowned travel writer. Poignant and playful, the novel recalls the experimentation of high-modernist fiction without compromising a limpid sense of place or the pace of its narrative. It is a portrait of a man in extremis, a haunting and at times irreverent tale that approaches the greatest challenge of our age—perhaps of our entire history as a species—from an impassioned human angle.

Socrates is a former classics teacher at a lycee. Dr Strabon is a travel writer and Mussert is a misanthrope, but also the man behind the masks of these other incongruous alter egos. In this novel, Nooteboom illustrates the polarities and similarities of scientific reality and philosophical theory.
